

**Redings Mill Fire Protection District
and Firewise Communities USA**

Presents

**Wildland Fire Fuel Reduction Day
Saturday May 11, 2013 9AM-1PM**

Put your fallen limbs up to 4" thick in your ditch near the roadway and we'll mulch them for you! We want to help you to reduce wildland fire fuel around your property by giving you the opportunity to dispose of limbs and grasses without burning them. Just leave them in your ditch near the roadway prior to May 11 and our tree service will come by and mulch them!

**To schedule a pickup contact Deputy Chief
Michael White at Redings Mill Fire District
by Friday May 10.**

417-624-2715 or mwhite@rmfd.org

***This program is for residents of
Redings Mill Fire District .***

Firewise Home Assessments**

Redings Mill Fire District offers a free Firewise Home Assessment. This is a simple 30-45 minute review of your property around the exterior of your home and how you can help protect it from a wildland fire. Our staff will meet with you and complete a worksheet that identifies ways to improve the survivability of your home and property during a wildland fire. We leave you with some simple suggestions on how to better protect your home.

**To schedule a free Firewise Home
Assessment contact Deputy Chief Michael
White at Redings Mill Fire District.**
